

XA-12C

PIR
DETECTOR

Intelligent passive infrared ceiling detector

Features

- Dual infrared + intelligent digital analysis
- Pet immunity (small animals weighing up to 11kgs)
- Full range of automatic temperature compensation, super anti-false alarm ability
- Digital signal microprocessor
- Long-life high stable circuit, fireproof housing
- Fully shielded technology, anti-RFI
- LOADIF stage FRESNEL lens
- Digital automatic pulse adjustment
- High density SMT craft
- Environmental testing mode
- LED ON/OFF selectable
- Detecting range : diameter of 8m (mounting height of 3.6m)
- Detecting angle : 306°
- Working voltage : DC9 ~ 16V
